

# AP World practice scoring worksheet

## Princeton Review 2023 · Practice Test 1

Use only this 2023 Practice Test 1. Another edition or test may use different bands. This is a practice estimate, not an official AP score.

Name \_\_\_\_\_

Date \_\_\_\_\_

### 01 Record your earned points

Use whole numbers and the matching question rubrics. Write 0 only when no points were earned.

| Input                   | Allowed range | Your score |
|-------------------------|---------------|------------|
| Multiple choice         | 0 to 55       | _____      |
| Short answer 1          | 0 to 3        | _____      |
| Short answer 2          | 0 to 3        | _____      |
| Selected SAQ 3 or 4     | 0 to 3        | _____      |
| Document-based question | 0 to 7        | _____      |
| Long essay              | 0 to 6        | _____      |

### 02 Calculate the test-specific composite

Multiple choice points × 1.090

\_\_\_\_\_

Short-answer total points × 3.3333

\_\_\_\_\_

DBQ points × 5.3571

\_\_\_\_\_

LEQ points × 3.750

\_\_\_\_\_

Add all worksheet contributions

\_\_\_\_\_

Round the final sum once

\_\_\_\_\_ / 150

Nearest whole number; exact .5 ties round up. Keep all intermediate decimals. These bands apply to the worksheet composite, not to weighted points out of 100.

|            |            |            |            |            |
|------------|------------|------------|------------|------------|
| 0-55       | 56-72      | 73-89      | 90-106     | 107-150    |
| Estimate 1 | Estimate 2 | Estimate 3 | Estimate 4 | Estimate 5 |

# Check the example and choose a next step

## 01 A complete worked example

MCQ 40/55; SAQ 1 2/3; SAQ 2 2/3; selected SAQ 3/4 3/3; DBQ 5/7; LEQ 4/6

|                    |                             |
|--------------------|-----------------------------|
| Multiple choice    | $40 \times 1.090 = 43.600$  |
| Short-answer total | $7 \times 3.3333 = 23.3331$ |
| DBQ                | $5 \times 5.3571 = 26.7855$ |
| LEQ                | $4 \times 3.750 = 15.000$   |

**Total 108.7186 becomes 109 / 150 becomes practice estimate 5.** Use this result only for the identified practice test.

Boundary check: 0 MCQ, 6 SAQ, 7 DBQ and 4 LEQ gives 72.4995. Round once to 72, for estimate 2. Rounding to 72.5 first would incorrectly cross the next band.

For the 2023 practice form, follow its question choices. The May 2027 exam instead requires all three source-based SAQs and one broad LEQ. Matching point limits do not make these old bands a 2027 curve.

## 02 Use the result to plan a specific repair

**Explain one historical connection.** Choose a missed SAQ part. Write the requested claim and one specific piece of evidence, then explain the connection.

---

---

**Audit one DBQ rubric row.** Name a document you used and explain how its sourcing or evidence supports your argument. Check the actual rubric before adding a point.

---

---

**Plan evidence for a broad LEQ.** List two relevant developments from different places or periods within the prompt, then state the reasoning linking them.

---

---
