

APUSH practice scoring worksheet

Weighted practice points out of 100

Use this sheet to calculate transparent weighted practice points. It does not convert a result to an AP score from 1 to 5.

Name _____ Date _____

01 Record your earned points

Use whole numbers and the matching question rubrics. Write 0 only when no points were earned.

Input	Allowed range	Your score
Multiple choice	0 to 55	_____
Short answer 1	0 to 3	_____
Short answer 2	0 to 3	_____
Short answer 3	0 to 3	_____
Document-based question	0 to 7	_____
Long essay	0 to 6	_____

02 Calculate the section contributions

Multiple choice	$\text{raw} \div 55 \times 40$	_____
Short answers	$\text{raw} \div 9 \times 20$	_____
Document-based question	$\text{raw} \div 7 \times 25$	_____
Long essay	$\text{raw} \div 6 \times 15$	_____

Add the unrounded contributions _____ / 100

Keep full precision until the final result, then display one decimal place. This weighted total is a study measure, not an official composite or a passing-score cutoff.

For May 2027, all three source-based SAQs and one broad LEQ are required. Earlier practice tests can have different choices; follow their own instructions. The DBQ is out of 7 and LEQ out of 6.

Practice test / question source _____

Rubric or scoring-guide date _____

Check the example and choose a next step

01 A complete worked example

MCQ 35/55; SAQ 1 2/3; SAQ 2 2/3; SAQ 3 2/3; DBQ 4/7; LEQ 4/6

Multiple choice $35 \div 55 \times 40$ about 25.4545

Short answers $6 \div 9 \times 20$ about 13.3333

Document-based question $4 \div 7 \times 25$ about 14.2857

Long essay $4 \div 6 \times 15$ about 10.0000

The unrounded sum is about 63.073593, displayed as 63.1 / 100. The section values above are shown to four decimals; retain full precision when adding.

One extra DBQ point adds $25/7 = 3.5714...$ weighted points. In this example, increasing DBQ from 4 to 5 raises 63.1 to 66.6. This compares score weight, not the difficulty of earning a point.

02 Use the result to plan a specific repair

Place a source in context. For a missed source-based MCQ, identify its period, audience or purpose. Explain why the correct answer fits better than your original choice.

Repair one SAQ explanation. Choose a missed A, B or C part. Give relevant evidence and explain the historical relationship requested by the task verb.

Build a focused evidence bank. Choose a theme such as federal power, migration or reform. List two developments and state how they support a comparison or change-over-time argument.

I will practice again on _____
