AP European History Weighted Practice Calculator

Enter the raw points requested by each field to calculate a weighted practice total out of 100. This current-format model does not convert the result to an AP score of 1 to 5.

May 2027 format: weighted practice composite

Applies the published section weights to practice points. This mode returns a weighted practice composite, not a predicted AP 1–5 grade.

Input	Allowed values	Example	Your score
Multiple choice correct	0 to 55	40	_____
Short answer 1	0 to 3	2	_____
Short answer 2	0 to 3	2	_____
Short answer 3	0 to 3	2	_____
Document-based question	0 to 7	5	_____
Long essay question	0 to 6	4	_____

Calculation

40*mcq/55 + 20*(s1+s2+s3)/9 + 25*dbq/7 + 15*leq/6

Worked example

The example gives 70.2814/100 before display rounding. It does not establish an AP 1–5 result; a score conversion requires a matched test form and conversion table.

Record one next step

My result: _____ Practice date: _____

A skill I will review: _____

My next practice task: _____

Sources and next steps

1. College Board exam format. 55MCQ40%; threeSAQ20%; DBQ25%; LEQ15%.

2. Primary scoring or revision source. 2027 requires all three source-based SAQs and one mandatory broad LEQ; scoring rubrics unchanged.

3. College Board course and exam description. Effective fall2026 CED verifies SAQ3 points,DBQ7 points andLEQ6 points; PDFpages271,264,267.
