AP Human Geography Score Calculator

Choose the current-format model or the named publisher practice test, enter raw points, and see the calculation. The publisher mode applies its own 1–5 conversion; the 2027 mode shows a weighted practice composite.

May 2027 format: weighted practice composite

Applies the published section weights to practice points. This mode returns a weighted practice composite, not a predicted AP 1–5 grade.

Input	Allowed values	Example	Your score
Multiple choice correct	0 to 60	42	_____
FRQ 1	0 to 7	5	_____
FRQ 2	0 to 7	4	_____
FRQ 3	0 to 7	5	_____

Calculation

50*mcq/60 + 50*(q1+q2+q3)/21

Worked example

The example gives 68.3333/100 before display rounding. It does not establish an AP 1–5 result; a score conversion requires a matched test form and conversion table.

Princeton Review AP Human Geography Prep - Practice Test 1 (ISBN 9780593451250)

Use only after scoring this exact practice test with its own answer key and rubrics. This conversion is not the current official exam curve.

Input	Allowed values	Example	Your score
Multiple choice correct	0 to 60	42	_____
FRQ 1	0 to 7	5	_____
FRQ 2	0 to 7	4	_____
FRQ 3	0 to 7	5	_____

Calculation

1.25*mcq + 3.5714*(q1+q2+q3)

Worked example

Using the printed coefficients gives 102.4996; round only the final total to 102. The matching conversion table gives AP 4 for this form.

AP score for the selected practice form

Minimum composite	Practice estimate
107	5
90	4
73	3
56	2
0	1

Historical or publisher practice-form result only. It is not a prediction calibrated to May 2027.

Record one next step

My result: _____ Practice date: _____

A skill I will review: _____

My next practice task: _____

Sources and next steps

1. College Board exam format. 60 MCQ in 60 minutes, 50%; three FRQs in 75 minutes, 50%.

2. College Board course and exam description. Each of the three free-response questions has 7 points.

3. Princeton Review AP Human Geography Prep - Practice Test 1 (ISBN 9780593451250). MCQ × 1.25; each FRQ × 3.5714. Round the final total; thresholds: 56, 73, 90, 107. This publisher conversion applies only to the named practice test.
